Spin 3					
Code 0					

Headsail Credit: n/a

Comments/Modifications

2012: Back stay attachment point on mast was modified by extending back stay cran from about 2.5 inches to 7 in. moving this point about 4.5 inches further from the aft face of mast. Done to put end to the need to partially lower the less than maximum girth main main during gybes in light air. Reverse has certificate has sketch of adjustment.
